Quels sont les pouvoirs du tuteur ou du curateur ?

Les pouvoirs conférés à celui qui exerce la mesure de protection varient en fonction du régime (*tutelle* ou *curatelle*), des modalités de mise en oeuvre (*conseil de famille*, administration légale ou gérance pour la *tutelle, curatelle* simple ou renforcée)

et de la nature de l'acte envisagé.

En effet, les ***actes d'administration,*** qu

i concourent à la gestion d'un *patrimoine* en conservant sa valeur, le faisant fructifier et

maintenant ses droits, se distinguent des *actes de disposition*

qui peuvent avoir pour effet d'en diminuer la valeur en

entraînant la transmission de droits.

Ainsi contribue à l'administration d'un *patrimoine*

le fait, par exemple, d'encaisser des revenus,

consentir une location non commercia

le inférieure à neuf ans ou ne conférant

ni droit au renouvellement ou au maintien

dans les lieux, vendre des meubles

non précieux, agir en justice relativeme

nt à des droits patrimoniaux, souscrire

une

assurance.
